Momentum Funding

WHEN ANOTHER ADVANCE IS NOT THE ANSWER

Momentum Debt Relief

The daily debits are eating the business. Another advance may not be the answer.

If you are being bled by payments on advances you already have, stacking another one on top can make the pressure worse rather than better. There is a different conversation to have, and being behind does not disqualify you from it — it is the reason to call.

EXISTING DEBT
$50,000
or more, across your current advances

WHAT CHANGES
The terms
of what you already owe — not a new advance

WHAT WE NEED
A list
of what you owe and to whom, and your statements

IS THIS YOU?

- You have $50,000 or more of existing advances running
- You have already been declined for more funding, or you know you would be
- Daily or weekly debits are taking money you need for payroll and stock
- You are behind, or about to be

HOW IT WORKS

1
Tell us everything you owe
Every advance, every balance, every daily or weekly debit. We cannot help with the half you leave out.

2
We look at whether this is workable
Sometimes the answer is that it is not, and you deserve to hear that quickly rather than be strung along.

3
Your obligations get renegotiated
This is not new money. Nobody lends you anything. What changes is the terms of what is already there. Sometimes that is workable when new funding is not — whether it is in your case depends on your numbers and on what your existing funding companies agree to.

4
You get a payment you can actually make
That is the aim. It is not a promise, and anyone who promises you an outcome here is selling you something.

HAVE THESE READY AND THIS TAKES ONE CALL

- Every advance you have, with the balance on each
- Three months of business bank statements
- The funding agreements themselves, if you still have them
- Photo ID

WHAT IT COSTS YOU

Nothing to find out. A cost if you go ahead.
Looking at your situation costs you nothing, and we charge nothing to tell you whether it can be helped — including when the answer is that it cannot. Unlike our funding programs, this one does have a cost to you if you enter it, and it comes out of the restructuring rather than out of your pocket up front. You get that cost in full, in writing, before you agree to anything. If anyone asks you for money up front to make debt go away, walk away from them.

THIS PROBABLY ISN'T YOU IF...

- You are current on your payments and simply want cheaper money — that is Momentum Working Capital
- You owe less than $50,000 across everything
- You are looking for someone to make the debt disappear. That is not what this is, and nobody can do it

One call tells you whether this is worth your time.

Agentic Voice Inc. d/b/a Momentum Funding. This is not a loan and not an advance. No new money is provided and nothing is lent to you. Momentum Funding does not provide legal, tax, accounting or credit-repair advice, and nothing here is a guarantee of any particular outcome — results depend on your circumstances and on what your existing funding companies agree to. We charge no upfront fee. Any cost is disclosed to you in writing before you enter into anything. Renegotiating obligations may affect your ability to obtain funding in future, and you should take independent advice if you are unsure.
