REAL CREDIT · FIXED END DATES

Momentum Term & Line of Credit

You don't want a daily debit off your receivables. You want a loan with an end date.

If you have the time and the numbers to back it up, an advance may not be your best option. A term loan or a revolving line can cost considerably less, depending on your file — it just asks more of you up front.

HOW MUCH

$1,000

to $10,000,000, depending on the product

WHAT DECIDES IT

Financials

read by a person, which is why this is not same-week money

WHAT WE NEED

4

months of statements, plus financials over $250,000

IS THIS YOU?

- You have been trading twelve months or more
- Your credit is 575 or above
- You do $25,000 a month or better
- You can wait days or weeks rather than needing the money this afternoon

HOW IT WORKS

1

Pick the shape, not just the amount

A term loan is a fixed sum with a fixed end date. A line of credit sits there until you draw on it and you pay for what you use. They suit different problems.

2

Send a real file

Signed application and four months of statements. Over $250,000, a year-to-date profit and loss and a balance sheet as well.

3

Underwriting takes its time

This is real credit, so a person reads it. A term loan or a line moves fastest; equipment takes longer; SBA is measured in weeks rather than days, and we will say so on day one rather than at the end.

4

Terms in writing, then you decide

Amount, rate, term, fees and payment, in a document, before anything is signed.

HAVE THESE READY AND THIS TAKES ONE CALL

- A signed application, dated in the last 30 days
- Four months of business bank statements
- Year-to-date P&L and balance sheet if you want over $250,000
- Photo ID

WHAT IT COSTS YOU

You pay us nothing. Ever.

We are paid by the lender when your loan funds. No application fee, no broker fee charged to you, no retainer, no charge if you decline the offer. The rate and any origination fee come from the lender and are disclosed to you in writing before you sign.

THIS PROBABLY ISN'T YOU IF...

- You need the money this week — real credit does not move at that speed. Ask about Momentum Working Capital
- You have been trading under a year, or your credit is below 575
- You want a personal loan or to borrow against your home — we arrange business funding only, and we will not place consumer credit
